

HUD Certification Letter

Re: Pipeline Safety and Compliance Certification

Dear Valued Property Owner:

This letter should be used for certification of compliance with Title 49, Transportation of the Code of Federal regulation.

As you are probably aware, Colonial operates a petroleum product pipeline(s), which crosses your property. All of the pipelines were built in strict accordance with pressure piping standards in effect at the time of construction. The pipelines are operated, maintained and inspected in compliance with the latest industry standards and Part 195 of Title 49 of the Code of Federal Regulations.

Liquid petroleum pipelines have one of the best safety records of any form of transportation used today.

If we can assist you in the future, please advise.

Very truly yours,

A handwritten signature in black ink, appearing to read "Gary L. Glancz". The signature is written in a cursive style with a large initial "G".
