Virtual Origin and Destinations

Customer Tutorial

How to enter placeholder nominations to reserve space on Colonial's downstream pipeline segments

What you need to know

What is the Virtual Origin and Destinations Program?

The **Virtual Origin and Destinations Program** provides the shipping community with a temporary nomination placeholder option during the allocation or potential freeze period. These nominations do not appear on the operating schedules or in the scheduling sequence.

This program will also help facilitate the PTO process until a match is complete.

Why do we need the Program?

The program will eliminate placeholder nominations from the operating schedule and improve overall PTO process efficiency, resulting in more accurate scheduling information and increased visibility for the shipping community.

How will it work?

This slide deck will walk through key actions required to execute the nomination placeholder process.

Beginning with Cycle 1 2027, Moundville (MDL) will no longer be a valid origin for placeholder nominations.

Key Actions

How the process is executed:

1

Submit the placeholder

Use **VIR** as the virtual origin with VPX as the SUP/CON/TANK

Use the virtual destination code specified on slide 3 for the requested line with VPX as the SUP/CON/TANK

2

Allocation or freeze decision

If line is allocated, Colonial Scheduling will delete the VPX nominations. The shipper then becomes responsible for submitting a valid nomination.

If line is not allocated: the placeholder stays until lifting begins; if the line is frozen, Colonial deletes it.

3

Replace the placeholder

Once the committed volume/line space is awarded: Submit a valid nomination with origin and destination after Colonial removes the VPX placeholder nomination.

VPX nominations will never appear on the operating schedule

Nomination Input Guidance

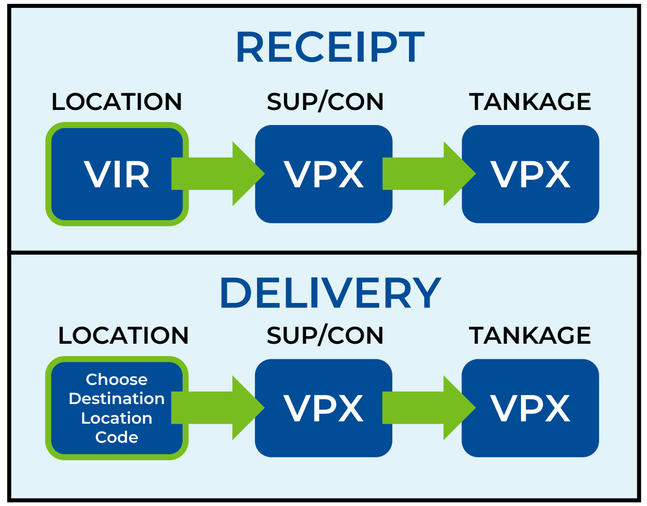

SELECT "VIR" AS THE ORIGIN FOR ALL PLACEHOLDER NOMINATIONS

VIR
Virtual Origin

SELECT THE DESIRED DESTINATION LOCATION CODE

ELIGIBLE DESTINATIONS*

Select the matching virtual destination location code
One origin. Any eligible line.

ELIGIBLE DESTINATIONS			
Line	**Location Code**	**Line**	**Location Code**
Line 03	TRD	Line 29	NAD
Line 04	BUD	Line 31	SBD
Line 12	BMD	Line 32	CBD
Line 13	DVD	Line 34	BWD
Line 14	CED	Line 37	EPD
Line 15	DVD	Line 39	GPD
Line 16	HAD	Line 45	PBD
Line 17	BBD	LND L0	SWD
Line 18	KVD	LND L1	NWD
Line 19	NVD	LND L2	BYD
Line 20	NVD	LND L3	BPL
Line 22	SLD	LND L4	LND
Line 23	RDA	LND L6	GXD
Line 24	FVD	LND L8	TPD
Line 27	NKD	LND L9	PRD

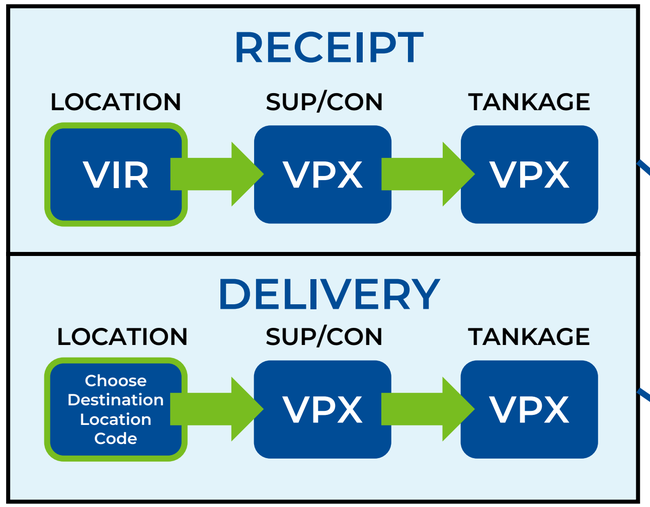

*The nomination placeholder process requires the use of the specified location code for each respective line

EXCEPTIONS: VIR cannot be used for Line 1 or Line 2 placeholders

Example: Virtual Origin and Destination
Single Origin with Multiple Destinations

Nomination process for all lines excluding Line 3 and Linden Locals:

SIMPLE PLACEHOLDER PATTERN

NOTE: Enter the volume for every event. Add one Delivery row for each destination needed. Ensure the total delivery volume matches the receipt volume

Batch Code

Carrier*	Shipper*	Product*	Cycle*	Sequence	Batch Year*
CPL - Colonial	AAA - AAA Test	62	50	1	2026

Additional Information

Shipper Batch ID	Batch Remarks

5 Nominated Events

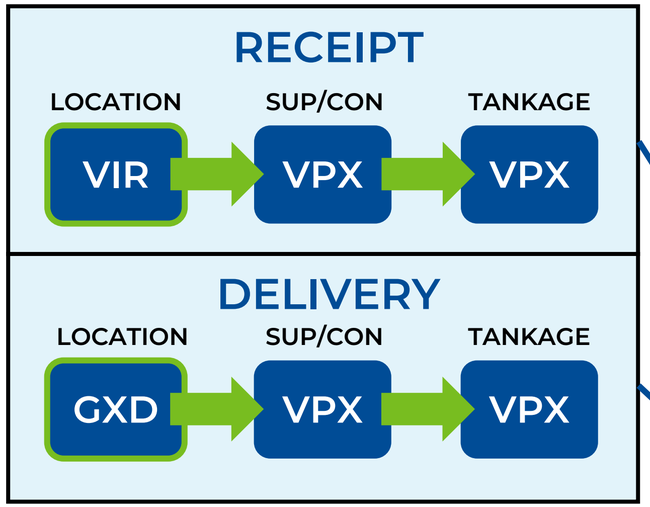

Event Type	Volume	Location	Sup/Con	Tankage	Grantees
Receipt	25	VIR	VPX	VPX	
Delivery	10	BBD	VPX	VPX	
Delivery	5	CBD	VPX	VPX	
Delivery	5	BMD	VPX	VPX	
Delivery	5	SLD	VPX	VPX	

Example shown: VIR origin with BBD, CBD, BMD, and SLD delivery destinations.

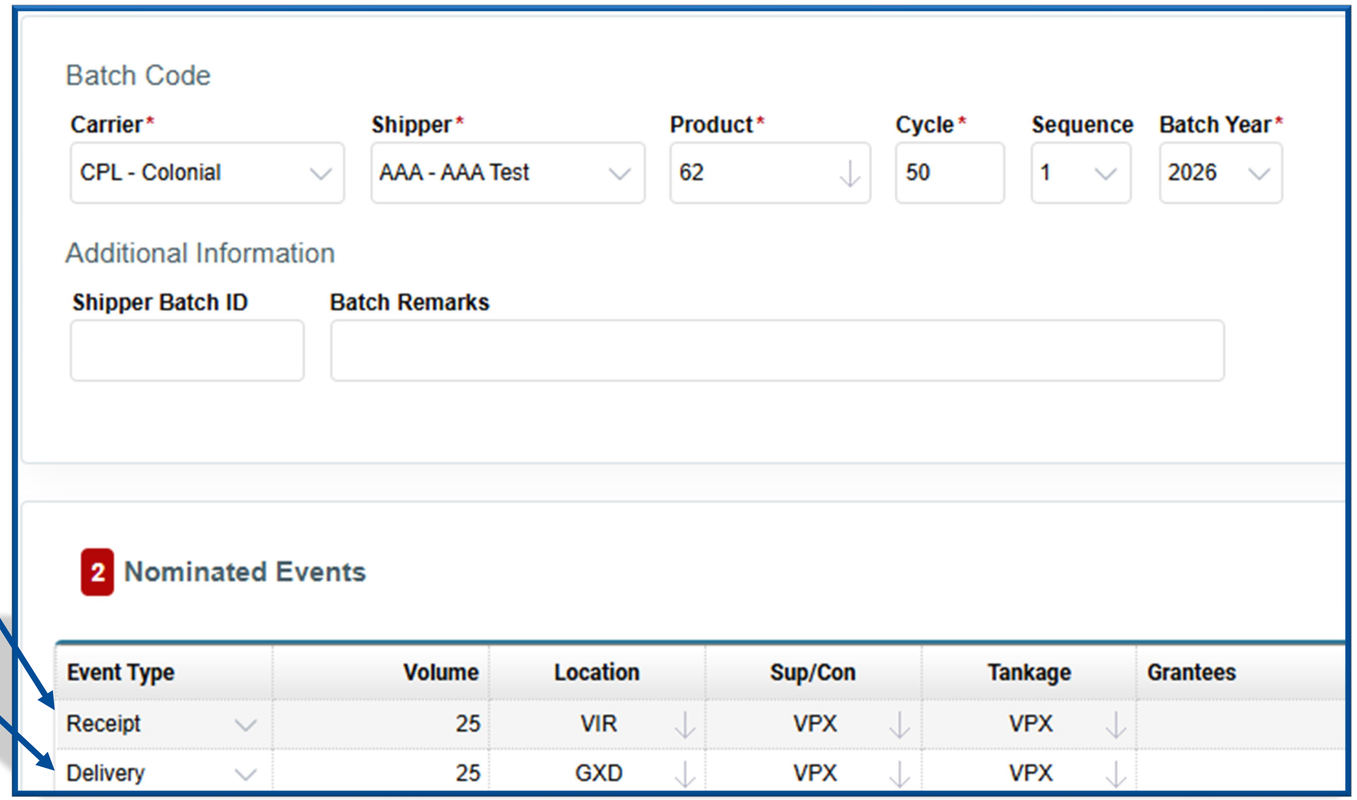

Example: Virtual Origin and Destination
Single Origin with Linden Local Line Destination

If you want to reserve space on Linden local lines ONLY.....

LINDEN LINE 6 PLACEHOLDER PATTERN

NOTE: Do not add TRD when you are not requesting Line 03. Enter the desired volume on each row.

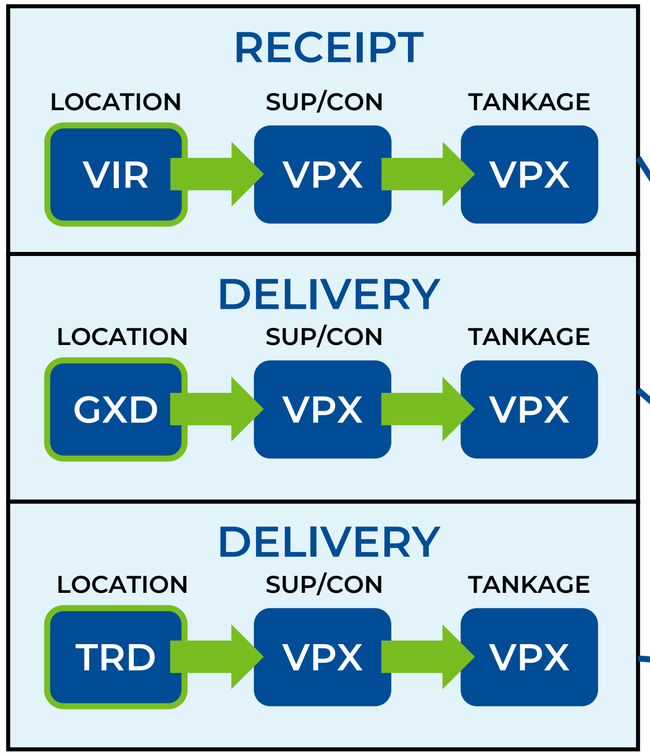

Example shown: 25.0 receipt at VIR and 25.0 delivery at GXD.

Example: Virtual Origin and Destination

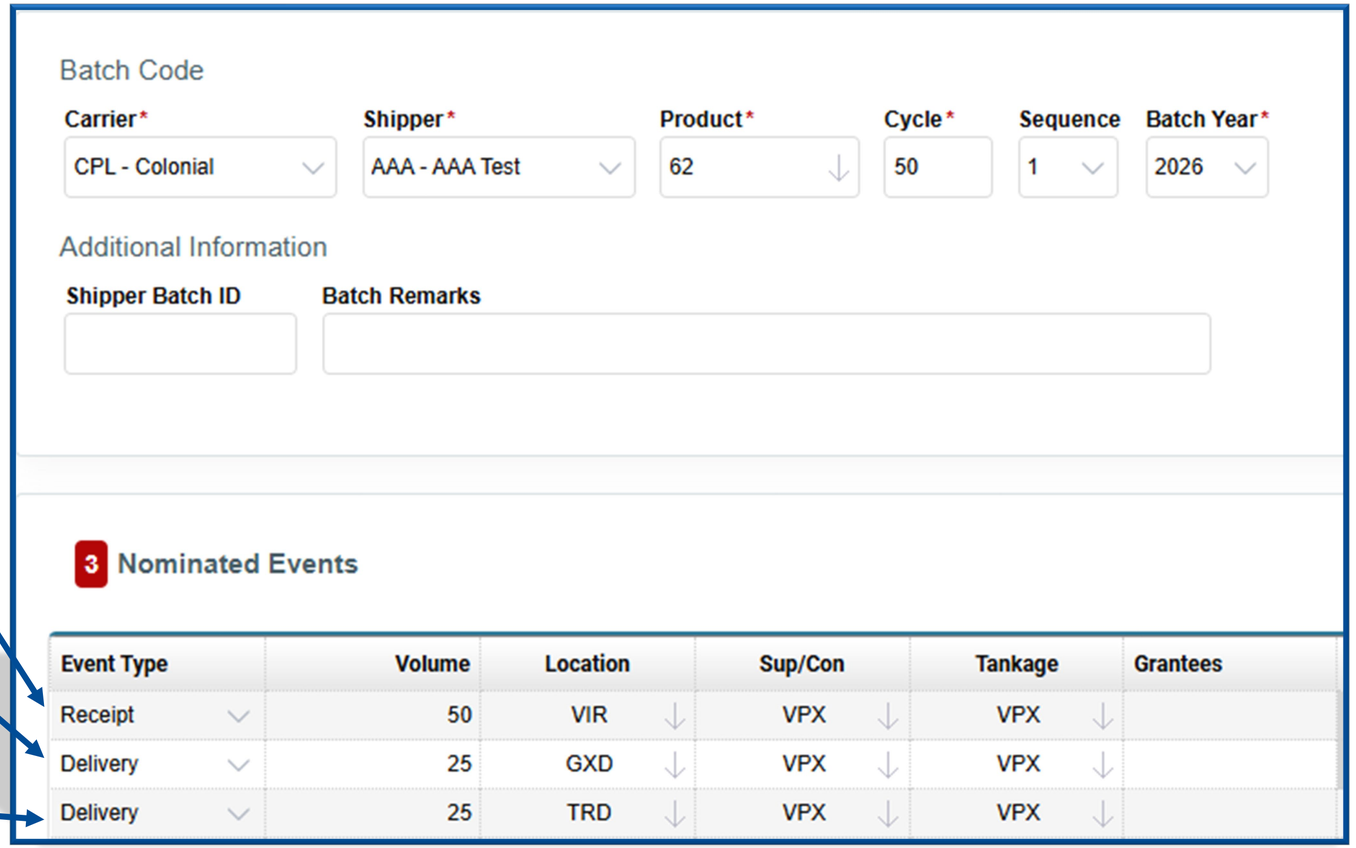

Single Origin with Line 03 and Linden Local Line Destinations

If you want to reserve space on Linden local lines AND Line 03.....

LINE 3 + LINDEN LINE 6 PLACEHOLDER PATTERN

NOTE: Do not add TRD when you are not requesting Line 03 space.

Example shown: 50.0 receipt; 25.0 delivery to GXD; 25.0 delivery to TRD.

Colonial Pipeline Company

Things to Remember

1. Virtual origins/destinations are just a placeholder, they never make it to the schedule
2. Once Allocated/Frozen Colonial will delete the placeholder (VPX) nominations
3. It’s the shipper’s responsibility to enter a valid nomination once allocation/freeze is completed.
4. Yes, you can have multiple delivery destinations on one nomination.
